

Use cases for Caption Companion

From Kindergarten to PhD

Place a stationary Caption Companion in each on-site or remote learning scenario, or give each student who needs one their own to carry with them.

Workplace of any kind

Whether you're a small business, large corporation, non-profit, government agency, or anything in between, Caption Companion can create a solid ADA baseline by giving your on-site and remote employees straightforward communication access.

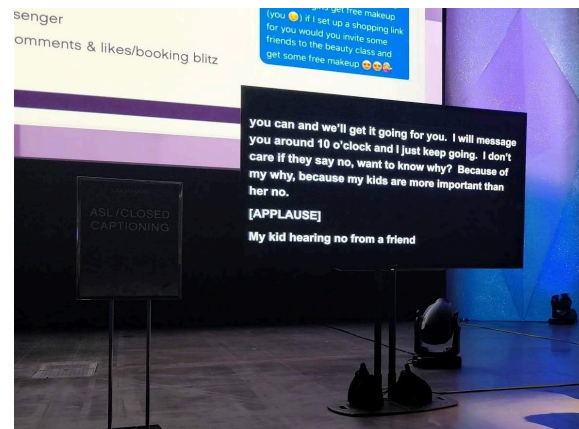

Ensure your event is accessible and inclusive

Connect Caption Companion to any large screen or projector, overlay the text, or issue out devices for event attendees to carry around with them.

Inquire about our other types of services too, such as interpreting, translation, audio description, video captions, subtitles, voice-overs, tech support, etc. Everything you need for your on-site, remote, or hybrid event.

Voc Rehab, Churches, Schools, Retirement Communities, Clubhouses, Museums, Tours, Conferences, Conventions, you name it Caption Companion was created with everyone in mind. If you need unlimited captioning, you need a Caption Companion.

Why buy Caption Companion instead of just using a captioning app on a phone, tablet, or computer?
