DEVICE SPECIFICATION

- **Dimension and weight**
Dimensions: 3.9" X 3.9" X 1.3" (100mm X 100mm X 34mm)
Weight: 170g

- **Compatibility**
iOS devices with iOS 10 or above
Android devices with Android 5.0 or above

- **Connectivity**
Bluetooh 5.2
Frequency, power and coverage:
Bluetooth® frequency: 2404 – 2480 MHz
Max output power: 2.5mW (4 dBm)
Bluetooth® coverage: Up to 15 m (45FT)
* Coverage can be reduced by thick walls and large objects

- **Power and battery**
Battery power: 1 x 1500mAh Li-ion Polymer Battery
Power consumption:
Active with strong vibration < 900mA Idle position < 200 µA
Operating time: Up to 14 days per charge
Charging time: about 2 hour 10 minutes @ 5V 1000mA, 25°C / 77°F

- **Cables and connections**
Cable length: 1 m (3.3')
Contacts: USB-A to USB-C

- **Environmental requirements**
For indoor use only
Temperature: 15° - 35°C, 59° - 95°F
Relative humidity: 5% – 95% (non-condensing)

- **What's include**
SmartShaker 3 Main unit
Charging cable
Manual

FAQS

1. In the app stores which app is for SmartShaker 3?
SmartShaker 3, not SmartShaker+

2. How long will the SmartShaker 3 continue to vibrate if left untouched?
5 minutes.

3. How can I snooze the alarm?

TROUBLESHOOTING

1. My SmartShaker 3 isn't responding.
Plug the SmartShaker 3 to a power source to make sure the device is fully charged. You can check the battery level by pressing the snooze button.

2. My app isn't connecting to my SmartShaker 3.
i. Make sure Bluetooth is enabled on your phone.
ii. Place the SmartShaker 3 and the connected phone closely together.

If this cannot help, try below.
i. Force close the SmartShaker 3 App.
ii. Toggle Bluetooth on your mobile.
iii. Hard reset your SmartShaker 3.
iv. Open your app again.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the followiing measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Hereby, iLuv Creative Technology declares that the radio equipment type SmartShaker 3 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the follow internet address : www.iluv.com

TROUBLE SHOOTING: When the battery is completely drained while not in use for a long period of time, try charging it a few times as it will resume its normal charging process. Restart the charging process if the charging indicator does not respond or is turned off after a few minutes.
DÉPANNAGE : Lorsque la pile est complètement épuisée parce qu'elle n'a pas été utilisée depuis longtemps, tentez de la charger quelques fois afin qu'elle se remette à charger normalement. Recommencez le processus de chargement si l'indicateur de charge ne répond pas ou s'il s'éteint après quelques minutes.
